### One Member's Opinion and a Question

It is hard to believe that for eight years we had an unqualified, affirmative action narcissist, who was an anti-colonial Marxist, serving as President of the U.S. What is more difficult to comprehend is that half of the nation thought he did a good job, as he withdrew from international commitments, emasculated our national defense, expanded government handouts and racked up unsurmountable debt. And the misguided souls who still support him are encouraged and coached in their thinking by five of the six major TV news networks.

After a legitimate constitutional election gave us a new President, our leftist friends are approaching sedition and open rebellion, sponsored by an off-shore billionaire who is anti-American.

The leftist and media obsession with proving a Trump link to Russia is beyond absurd. The true troubling link to Russia is the one orchestrated by the Clintons to sell major uranium assets in exchange for contributions to their foundation and exorbitant speaking fees. This fact is ignored by the press.

Who is orchestrating this insanity and what is their real motive?

## I Am a Republican Because:

I believe the strength of our nation lies with the individual and that each person's dignity, freedom, ability and responsibility must be honored.

I believe in equal rights, equal justice, and equal opportunity for all, regardless of race, creed, sex, age or disability.

I believe free enterprise and individual initiative have brought this nation opportunity, economic growth and prosperity.

I believe government must practice fiscal responsibility and allow individuals to keep more of the money they earn.

I believe the proper role of government is to provide the people only those critical functions that cannot be performed by individuals or private organizations, and that the best government is that which governs least.

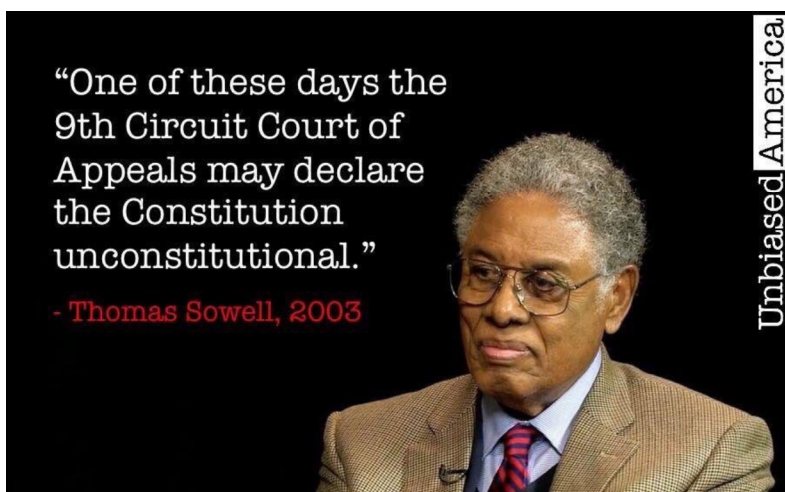

I believe the most effective, responsible and responsive government is government closest to the people.

I believe Americans must retain the principles that have made us strong while developing new and innovative ideas to meet the challenges of changing times.

I believe that Americans value and should preserve our national strength and pride while working to extend peace, freedom and human rights throughout the world.

Finally, I believe the Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.
